## Time-saving search capabilities

Teachers can quickly find images for lesson plans and classroom activities while students will turn to the site for homework assignments and project-based learning. Higher Education faculties can trust ImageQuest™ in course development, university publications, faculty research, student projects, student web pages and newspapers.

## Be confident in the images you use

Each photo or illustration comes with complete metadata, including the source, the copyright holder, caption and keywords. Because Britannica® has done the work of finding the best photos – most of which are not freely available on the Web – you can trust the source and be certain that you're using an accurate photo.

## Rights-cleared images selected for educational relevance

All images in ImageQuest™ are rights-cleared for non-commercial, educational use – perfect for teacher lesson plans, assignments, classroom activities, student reports and projects; or school websites, newsletters, newspapers, flyers and bulletins.

- Easy integration with LMS and suitable for whiteboards, tablets, PC & Mac
- A single annual subscription provides for significant savings over the purchase of rights for individual images
- Individual login allows for personal accounts to save and organise your images and access them from multiple devices
- Use the power of storytelling and imagery to inform others about a topic
- Match images to word definitions to strengthen vocabulary
- High-quality images, reproduced at 150 dpi
